Educational Software Solutions

About Us

In 2009, Medixsoft Company was established with the aim of assisting clients in the education and healthcare sectors to enhance performance, navigate complex regulations, reduce costs, recover from distress, leverage technology, and drive growth. Our company works closely with clients to deliver sustainable and measurable results. We serve a diverse range of organizations, including leading academic institutions, healthcare organizations, Fortune 500 companies, and medium-sized businesses.

In 2022, Medixsoft underwent a rebranding process and emerged as eKohi Technologies, following the successful development of a series of educational software solutions tailored to address the specific challenges faced by school districts and universities. This expertise positions eKohi as the preferred choice for clients seeking tangible results.

Anonymous Reporting / Bullying

The Anonymous Reporting/Bullying product offered by eKohi Technologies provides a secure and confidential platform for students, parents, and staff to report instances of bullying or any concerns related to student well-being. The primary goal is to ensure a safe and anonymous channel for reporting, enabling schools to address and mitigate such issues promptly.

☐ Once a Month

☐ Once a Year

☐ Multiple Times

☐ Everyday

Name of student(s) the incident happened to. Include first and last name(s). (optional)

Web and Mobile Interfaces

Accessible through both web and mobile interfaces, the platform ensures convenience and ease of use for all users. It emphasizes the importance of preventing and addressing bullying, including cyberbullying, within school districts. By offering an anonymous reporting system, individuals can feel more comfortable coming forward with their concerns, fostering a safer and more supportive learning environment.

Once a report is submitted, the platform immediately notifies the designated school personnel, such as an administrator or counselor, who can then take appropriate action. The system features dashboards that allow district and school-level personnel to track the total number of incidents reported, those pending resolution, and those successfully resolved. This enables administrators to monitor case progress and ensures timely follow-up and intervention.

To promote accountability and transparency, all resolutions of reported incidents are meticulously tracked and audited. By maintaining comprehensive records of actions taken, the system allows for continuous evaluation and improvement of bullying prevention and intervention strategies.

To serve a diverse audience, the Anonymous Reporting/Bullying form can be translated into multiple languages, including Spanish, Filipino, French, Japanese, and Vietnamese... Additionally, it categorizes reports into various types, such as bullying, drug-related incidents, theft, assault, and physical violence... Users can also specify the location of the incident, including classrooms, restrooms, locker rooms, gyms, lunch areas, playgrounds, hallways, parking lots, buses, and off-campus locations. The platform also includes cyberbullying categories such as email, text messages, voicemail, and social media platforms like Instagram, Facebook, Twitter, YouTube, and Snapchat.

Media / Images Upload

Ekohi Technologies' anonymous reporting app lets you effortlessly attach photos and videos to incident reports. Whether you're on our web portal or using the intuitive eSkoolz mobile app, uploading media is fast and seamless, giving you the flexibility to provide clear evidence anytime, anywhere.

The web portal interface for anonymous reporting is displayed on a tablet. It features a clean, white background with a dark blue header. The form includes three text input fields: the first for the name(s) of students alleged to have caused the incident, the second for the name(s) of anyone else who knows about what happened, and a larger third field for a detailed description of the incident. A character count '0/5000' is visible below the description field. A prominent dark blue button with a white upload icon and the text 'Upload Media' is centered below the form. At the bottom, there is a reCAPTCHA checkbox labeled 'I'm not a robot' and two buttons, 'Clear' and 'Send'.

Name(s) of students alleged to have caused the incident(s). Include first and last name(s) if possible. (optional)

Name(s) of anyone else who knows about what happened (optional)

Please describe the incident. Try to include as many details as possible.

Clear Send

The mobile app interface for anonymous reporting is shown on a smartphone. It has a dark blue header with a back arrow and the title 'Anonymous Reporting'. The form layout is similar to the web portal, with three text input fields for the incident details. A blue button with a white upload icon and the text 'UPLOAD MEDIA' is positioned below the form. At the bottom, there are two buttons: 'Submit' in blue and 'Cancel' in red.
