About Us

In 2009, Medixsoft Company was established with the aim of assisting clients in the education and healthcare sectors to enhance performance, navigate complex regulations, reduce costs, recover from distress, leverage technology, and drive growth. Our company works closely with clients to deliver sustainable and measurable results. We serve a diverse range of organizations, including leading academic institutions, healthcare organizations, Fortune 500 companies, and medium-sized businesses.

In 2022, Medixsoft underwent a rebranding process and emerged as eKohi Technologies, following the successful development of a series of educational software solutions tailored to address the specific challenges faced by school districts and universities. This expertise positions eKohi as the preferred choice for clients seeking tangible results.

Behavioral Systems

eKohi Technologies offers a series of products focused on behavioral systems, recognizing the significant impact they have on instruction and education. The current suite of products includes the following:

- a) Anonymous Report / Bullying
- b) Student Choice Tracker
- c) Alerts

a) Anonymous Report / Bullying

The Anonymous Report / Bullying product offered by eKohi Technologies provides a secure platform for students, parents, and staff to anonymously report instances of bullying or any other concerns related to student well-being. The primary aim is to ensure a safe and confidential channel for reporting, allowing schools to promptly address and mitigate such issues.

b) Student Choice Tracker

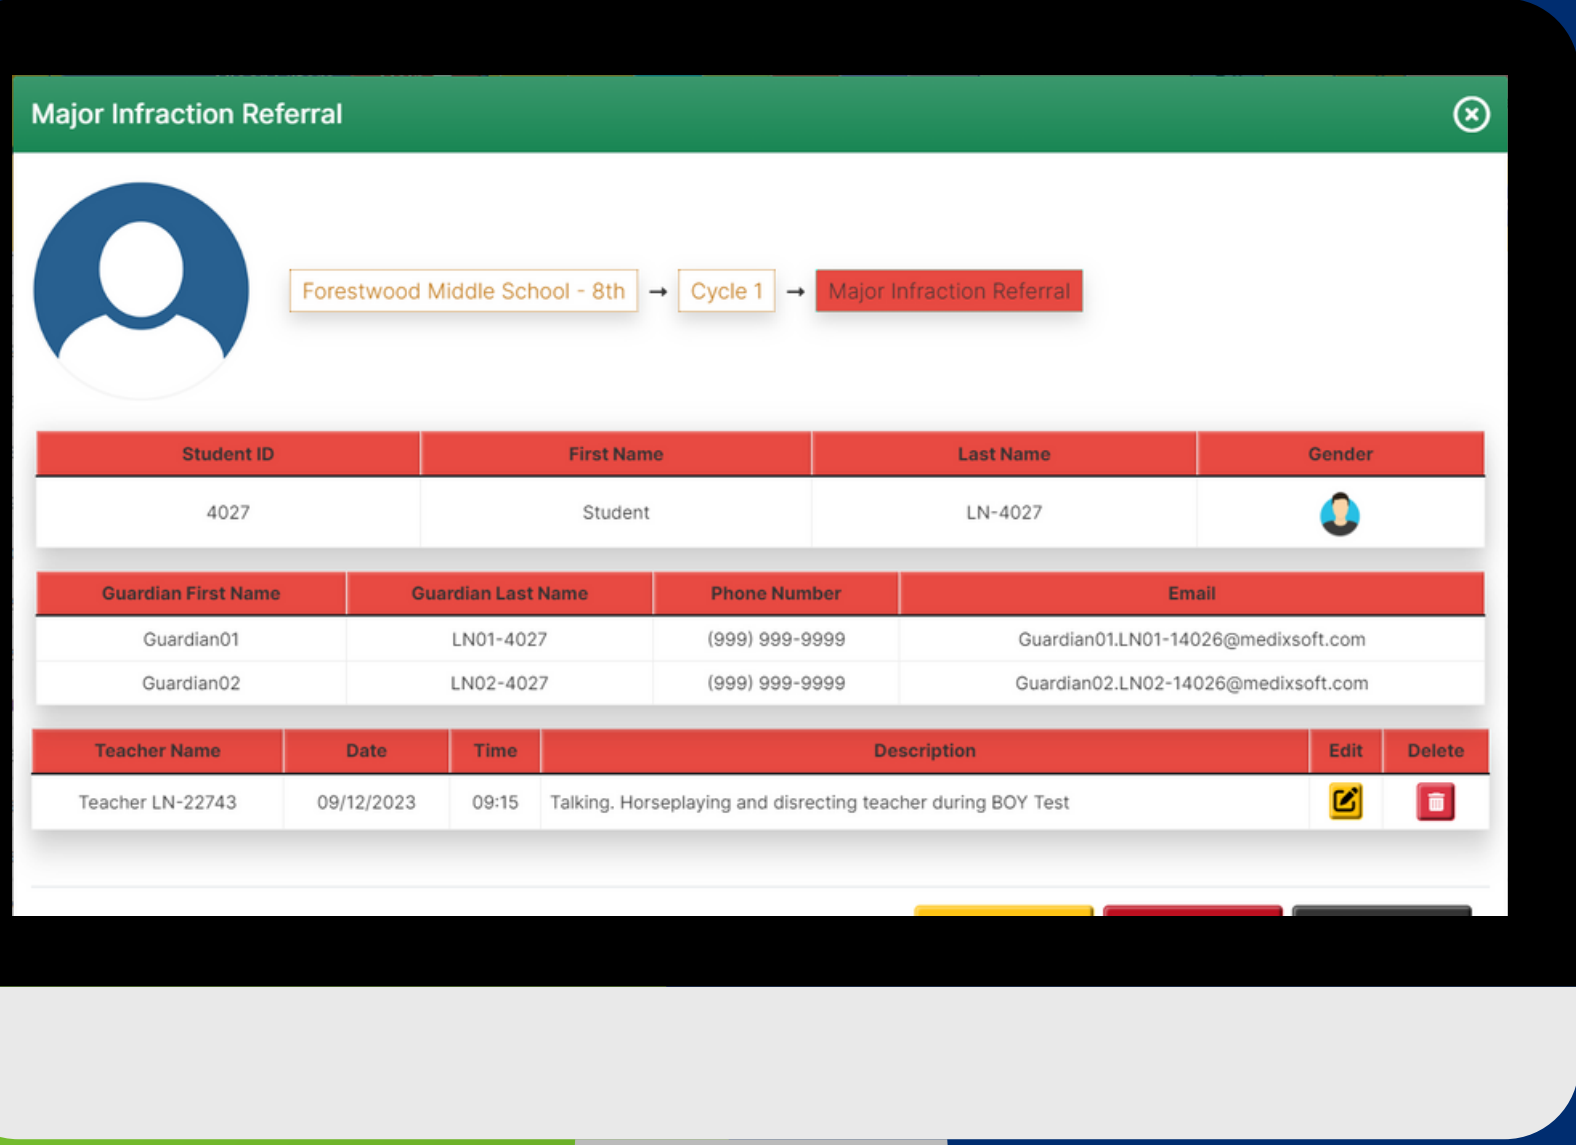

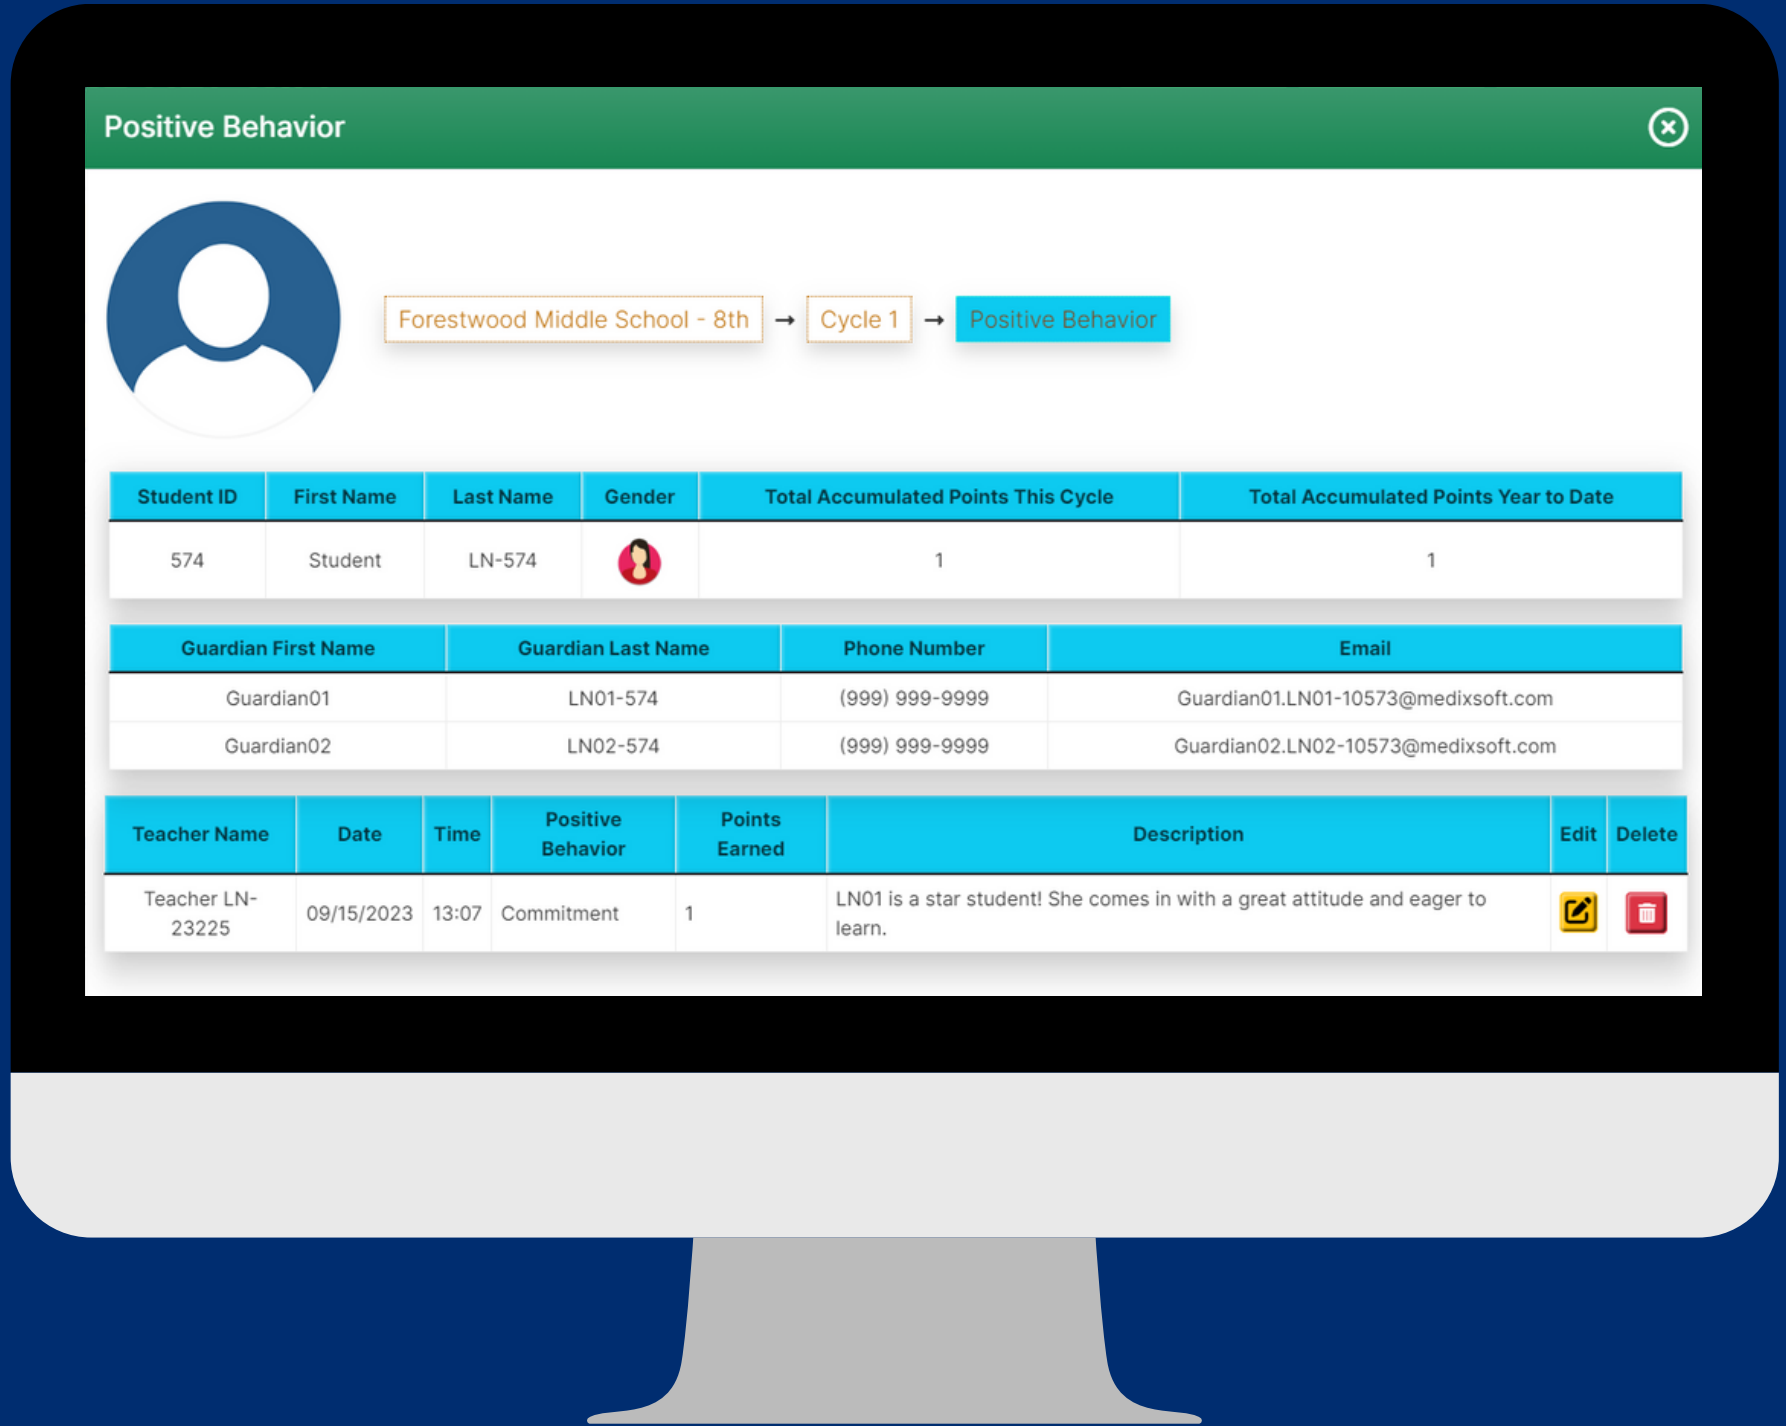

The demerit system is a student discipline system that tracks various key performance indicators (KPIs) on a cyclical basis within a school and/or district level. It includes the following components:

- Positive Behavior
- Major Infraction Referral
- Tardy
- Warning
- Parent Contact
- Email Admin
- Parent Conference
- Referral

Positive Behavior

By highlighting and celebrating positive behaviors, this product encourages a supportive and respectful learning environment.

Major Infraction Referral

This refers to a formal report of a significant violation committed by a student.

Tardy

Records instances when a student arrives late.

Warning

A notification given to a student for a minor infraction as a first-level response.

The screenshot shows the 'Tardy/Late Arrivals' interface. At the top, there is a breadcrumb trail: 'Forestwood Middle School - 8th' → 'Cycle 1' → 'Tardy/Late Arrivals'. Below this is a student profile card with a placeholder image and the student's ID (410), first name (Student), and last name (LN-410). Underneath are two guardian records:

Edit

The demerit system allows for customization in terms of demerit categories and demerit levels. By default, it includes categories such as

- **Defiance**
- **Disrespect**
- **Disruption**
- **Not following directions**
- **Dress code violations**
- **Eating food/candy**
- **Use of electronic devices**
- **Inappropriate language**
- **Physical contact**
- **Sleeping during class**

The system integrates with the student information system to access relevant student data, including contact information of guardians.

Demerit Category	
 Defiance	 Disrespect
 Disruption	 Not Following Directions
 Dress Code	 Eating Food / Candy
 Electronic Device	 Horse Play
 Inappropriate Language	 Physical Contact
 Sleeping	

Demerit Level

Additionally, it offers a mobile version that allows users to record offenses committed by students using an iPhone or Android phone. This feature is particularly useful when incidents occur outside the classroom setting, such as on a school bus, in the gym, or cafeteria, among other locations.

c) Alerts

The Alerts product offered by eKohi Technologies is a powerful system designed to generate and distribute notifications efficiently. It serves as a communication tool that enables instant and timely awareness of important incidents or concerns within the school community.
